

ENVIRONMENT POLICY

Spry Civil Construction is committed to achieving compatibility between economic development and the maintenance of the environment.

To fulfil this commitment we the PCBU and our workers will observe all environmental laws by;

- Ensuring compliance with environmental legal requirements including the EPA Regulations, AS/NZS ISO Standards and industry best practice as a minimum level within all of its activities.
- Integrating environmental factors into planning and operational decisions and processes.
- Assessing environmental effects of our activities and regularly monitor and audit our environmental performance.
- Establishing measurable objectives and targets to ensure continual improvement our environmental performance.
- Promote environmental awareness among our workers and contractors to increase understanding of environmental matters.
- Use of innovations and technologies to minimise atmospheric emissions and noises.
- Minimise the generation of waste products.
- Prevention of Pollution.
- Being an industry leader in Environmental Management.
- Support the principles of Ecologically Sustainable Development as detailed in SA environmental legislation.
